EGAT INTERNATIONAL COMPANY LIMITED
NOTES TO THE INTERIM FINANCIAL STATEMENTS
FOR THE THREE-MONTH AND SIX-MONTH PERIODS ENDED JUNE 30, 2026 (UNAUDITED)
(REVIEWED)

1. GENERAL INFORMATION

EGAT International Company Limited (“the Company”) is a limited company, incorporated in Thailand on December 18, 2007. The Company is located at 53 Moo 2, Charan Sanitwong Road, Bang Kruai, Nonthaburi.

The Company is an investment arm for Electricity Generating Authority of Thailand “EGAT” of which the main objectives are to secure domestic power system by importing electricity and to create value added by investing abroad in power and power related businesses for benefits of EGAT businesses and the country.

2. BASIS FOR PREPARATION OF THE INTERIM FINANCIAL STATEMENTS

The interim financial statements have been prepared in accordance with Thai Accounting Standards No.34, Interim Financial Reporting.

The interim financial statements consist of primary financial information (i.e. statement of financial position, statement of comprehensive income, statement of changes in shareholders’ equity, and statement of cash flows). The Company has chosen to present the interim financial statements in a format consistent with the annual financial statements, in compliance with Thai Accounting Standard No. 1, Presentation of Financial Statements.

The interim financial statements have been prepared to provide information in addition to that included in the financial statements for the year ended December 31, 2025. They focus on new activities, events and circumstances to avoid repetition of information previously reported. Accordingly, these interim financial statements should be read in conjunction with the financial statements for the year ended December 31, 2025.

The preparation of the interim financial statements in conformity with Thai Financial Reporting Standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying amounts of assets and liabilities that are not readily apparent from other sources. Subsequent actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised, if the revision affects only that period, and in the period of the revision and future periods, if the revision affects both current and future periods.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended December 31, 2025.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2026, do not have any significant impact on the Company's financial statements.

New and revised financial reporting standards that are not yet effective

The Federation of Accounting Professions issued several new and revised financial reporting standards which are effective for fiscal years beginning on or after January 1, 2028. The key changes in principles of the financial reporting standards can be summarized as follows.

Thai Financial Reporting Standard No. 18: Presentation and Disclosure in Financial Statements

Thai Financial Reporting Standard No. 18 will supersede Thai Accounting Standard No. 1: Presentation of Financial Statements. This standard introduces new requirements for the classification of income and expenses and the presentation of subtotals in the statement of profit or loss. In addition, it mandates the disclosure of management-defined performance measures and enhances the principles of aggregation and disaggregation of financial information.

Amendments to Thai Accounting Standard No. 7: Statement of Cash Flows as a Consequence of Thai Financial Reporting Standard No. 18

The amendments to Thai Accounting Standard No. 7 are made to align with the requirements of Thai Financial Reporting Standard No. 18: Presentation and Disclosure in Financial Statements. The amendments require an entity to use the newly defined subtotal "Operating profit or loss" as the starting point in the statement of cash flows when presenting cash flows from operating activities using the indirect method. In addition, these consequential amendments introduce new requirements for the classification of cash flows related to interest and dividends in the statement of cash flows.

4. RELATED PARTY TRANSACTIONS

The Company had business transactions with related parties. These parties are directly and indirectly related through common shareholding and/or directorship. The financial statements reflect the effects of these transactions on the basis determined by the Company and the parties concerned.
